

# Limitless possibilities for use due to maximum flexibility

## Design diffuser LDR LTG System clean®

From museum to showroom, from concert hall to mansion – anywhere attractive looks and high flexibility are required for airflow, the design diffuser is the right choice.

- Varied flow configurations through adjustable components
- Limitless design possibilities – whether as a visible design element with straight or curved lines, or almost invisible: variable shape and colour available
- Minimum contamination on the ceiling, thanks to LTG System clean®
- Draught-free fresh air supply

## Air diffusers

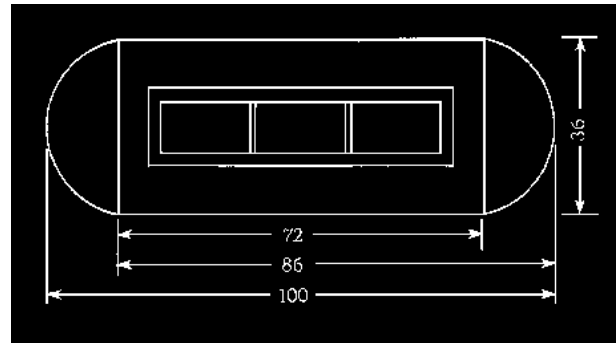

### Circular air diffuser type LDR

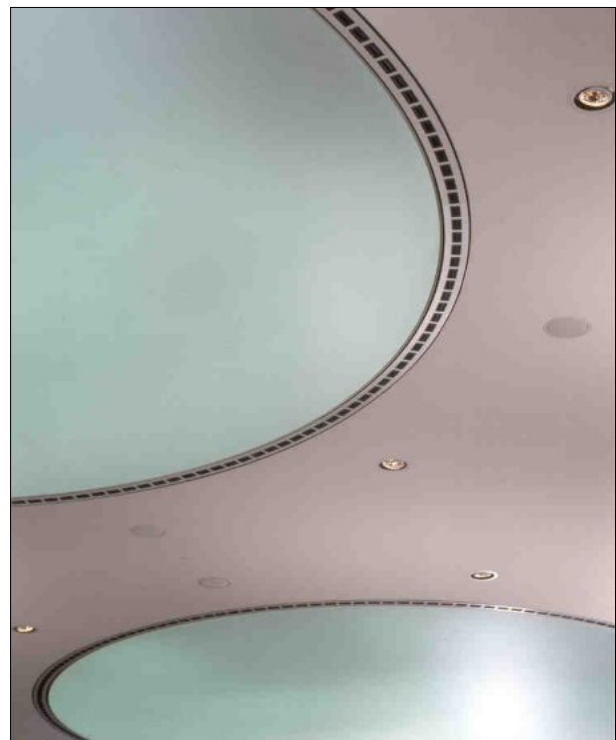

*LDR element*

#### Features

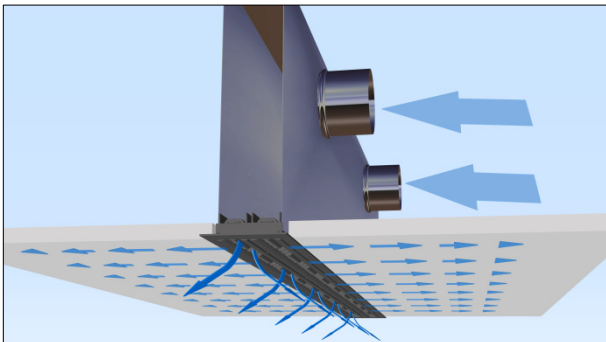

- Virtually unlimited design variations:
  - linear, curved or rectangular arrangement
  - use as "design feature"
