

## VSZ, VSA AIR VALVE

- for supply air and exhaust air
  - Installation in ceilings, walls
  - made of sheet steel, white powder-coated; Mounting frame galvanized
  - ■ Volume flow infinitely adjustable over the valve lift
  - ■ Sizes DN 80 to DN 200
-

# VSZ AIR VALVE

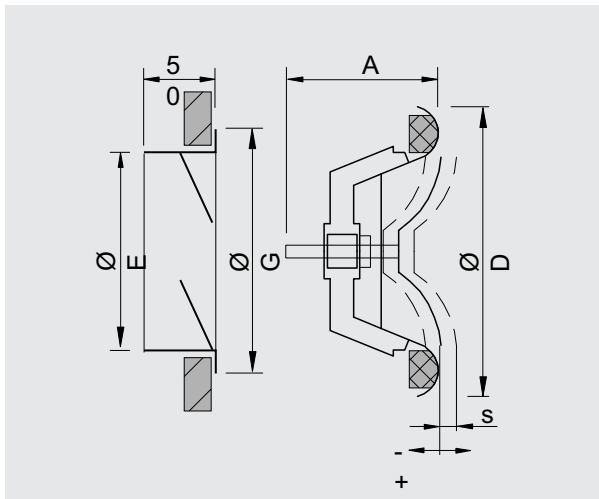

Datasheet

## VSA Exhaust Air Valve

for exhaust air for installation in ceilings and walls as well as free-hanging applications. Made of sheet steel, powder-coated in colour white (RAL 9010). With bayonet catch, galvanized installation frame and rotary sealing ring. Stepless volume flow rate adjustment via rotary valve disc, which is lockable with a counter nut.

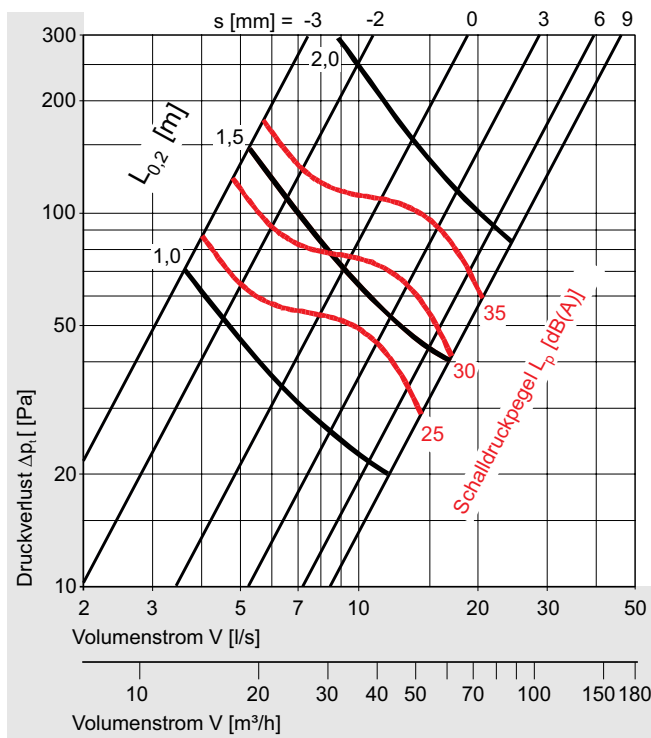

## VSZ Supply Air Valve

for supply air for installation in ceilings and walls as well as free-hanging applications. The jet spread is performed radially all-around. Made of sheet steel, powder-coated in colour white (RAL 9010). With bayonet catch, galvanized installation frame and rotary sealing ring. Stepless volume flow rate adjustment via rotary valve disc, which is lockable with a counter nut.
