

Linair H14 50/60 Hz

Plug & Play
Air Purifier

High flow
up to 600m³/h

Socket connection
single-phase motor

Filter access
quick closing system,
provides easy access
to filters

Silent
due to the double
sandwich panel with
mineral wool

Antiviral
filters indoor air and
reduces viral and
bacterial load

Integrated control
for automatic
operation,
programming and
energy saving modes

Coro-stop
protection against
corrosion to prevent
oxidation

Filter alarm
with sensor that measures
the degree of clogging of
the filters (optional) - allows
change in time

HEPA H14
two absolute filtration
stages hepa H14

Mobility
wheels for easy
repositioning

Linair H14 50/60 Hz
Plug & Play Air Purifier

About HEPA filters

- ▶ HEPA filters are the best known methods of cleaning indoor air.
- ▶ HEPA air filters help remove contaminants and impurities from the air. The HEPA H14 filter, used in the LINAIR H14 air purifier, can remove 99.995% of dust particles larger than 0.3 microns (standard measurement for microns).
- ▶ Just as caring particles cause allergies or asthma (bacteria, pollen, animal hair, cigarette smoke, odors, spores, mold, etc.), viruses are stopped by the HE14 H14 filter.

Sizes

Linair H14 is available in two different sizes:

1. LINAIR S AC/EC up to 300m³/h indoor spaces (2,5m high) of up to 45m².
2. LINAIR L AC/EC up to 600m³/h indoor spaces (2,5m high) of up to 90m².

	LINAIR S AC	LINAIR L AC	LINAIR S EC	LINAIR L EC
Phase	single	single	single	single
Nominal voltage (V)	230	230	230	230
Nominal voltage range (V)	220-240	220-240	220-240	220-240
Rated R.P.M.	2480	2530	3980	3600
Rated I (A) 230V	0,42	0,82	1,08	1,28
Rated Power (W)	100	190	135	166
Max. Airflow (m³/h)	300	600	300	600
Sound dB(A) (at 6m)	38	42,5	41	44
Surfaces up to (m2)	45	90	45	90
Hight with wheels (mm)	670	975	670	975
